The Official Distributor of SafeKing
in the Hong Kong and Macau area

Safeking®

11th November, 2010

Dear Sir/Madam,

We are very happy to announce that Kingsway Hotel & Novelties Supplies (H.K.) Ltd. has been appointed to be the official distributor of all products of SafeKing Hospitality (Shanghai) Ltd. in Hong Kong and Macau area.

SafeKing® specializes in hospitality security products like hotel in-room safe (Xpro, Xpro-II & Xdra series) and door locks. SafeKing® Director Mr. Raphael Ge has over 20 years of experience in the industry and had previously invented the design of top open safe around ten years ago. Being one of the world's leading company in the hotel security industry, SafeKing® supplies quality products with strong management system for hotel management purposes. With their most advanced SafeLink, i-Key and Bluetooth technology, SafeKing® created a new era in the whole hotel industry.

Promising Security, Easy to operate.

Being the distributor, Kingsway has now arranged product samples and equipments for demonstration at our newly set up showroom. If you are interested in the product, we can organize a presentation, demonstrating the functions and showing you the quality of SafeKing® products for your reference. Please do not hesitate to contact our sales team for more information by calling us at **2388-0145** or sending us E-Mail at **sales@kingswayltd.com.hk** .

Best regards,

Kingsway Hotel & Novelties Supplies (H.K.) Ltd.

Safeking® SafeLink

SafeLink handhold system with unique bluetooth technology
brings simplicity and security to hotel safe management.

Consists of:

HP Touch screen Pocket PC iPAQ.
Fast and intuitive Windows based software .
Bluetooth transceiver.

Unique user ID's for all users to access.

The safeLink software has been installed in HP Windows® pocket PC before delivery.
SafeLink requires unique user ID's for all users to access this software. Enable
you to securely override locked safes,program safes,print and read event logs
superior to master key or master code overrides.

High security access and audit trail

The SafeLink was deliveried with highly protected access password (6 digit), and you
can define and record the employee ID (from "01" to "99") for every employee that they
are assigned to use SafeLink. The employee will be audited by "Safe events" after they
use their unique 4 digit access password.
Safe's audit trail report includes latest 124 safe events in safe flash memory. which
includes SafeLink operation with employee ID's, guest opening or i-key operation etc.

SafeLink Features:

A complete security management solution.
Pocket PC is compatible with both safes and some brand's locks.
Use bluetooth communication between SafeLink and safe.
Compatible with Xpro,Xdra,Angel and Prince and most earlier safes.
Simple and high level password protection.
Program the safe with date and time.
Service Open for emergency solution when guest forget their code.
Read out and direct display 124 safe events on the screen.
Transfer and easy print out the safe audit trail through your computer.
1000 SafeLink's audit trail can be checked or printed out when necessary.

Use external battery when
safe's battery capacity
is very low.

The powerful SafeLink with
touch screen Windows®
pocket PC software
